Now Bryan relies upon a republican senator to save the country from any mischief, says the Philadelphia Press.

He says it would have to pass upon his responsibility, but what does the country want of a president from whom it has to be saved by any kind of refuge, whether it be a republican senator or something else?

In replying to the appeal of Mr. Bryan to the farmers for contributions to the campaign fund, an Ohio farmer writes: "In the last democratic administration I sold oats at 12¢ cents per bushel. Oats are now worth 45 cents per bushel. I sold corn at 16 cents a bushel; corn is now worth one dollar. I could not get more than \$50 or \$100 for a good horse that now will sell for \$150. Cattle, hogs and sheep are in proportion." Farmers of Lincoln county will remember that similar conditions existed in Nebraska.

The Omaha Bee reminds the laborers of Nebraska that the republican party has proven their friend not only in the enactment of federal legislation, but in this state as well. It calls attention to the following work of a republican legislator: It abolished the \$5,000 limit of recovery for damages in case of death. It enacted an employer's liability law, restricting the defense of contributory negligence to the actual degree of negligence. It enacted a stringent child labor law. It established the double shift for members of fire departments in metropolitan cities. It enacted a pure food law for the protection of workingmen's families from adulterated foodstuffs. It empowered the State Railway commission to remedy just grievances of railway employees to conditions of service.

Something New in Sunday school work.

Prof. J. C. Baber, Ph. D., representative of the American Baptist Publication Society, will be in North Platte for a week's bible school institute in the Baptist church. The first session will be Friday night, Oct 9th. The nature of this institute will be the same as the summer junior normal, so far as teacher training is concerned. Pedagogy, methods, etc., indeed "the science of teaching" will be presented. Dr. Baber is a man of wide experience as a teacher. He was for a number of years president of one of the largest normals in the South. He has just recently come into Nebraska and has made a new departure in Sunday school work, giving about a week to a regular institute for Sunday school workers. This meeting is for the North Platte Baptist Association, and a number of persons are expected from the various Baptist churches. Invitations have been sent to the several schools in the city with the hope that their teachers will be present. While the work is intended primarily for workers, any who are interested are welcome.

At least an afternoon and evening session will be held each day until Wednesday, except Sunday afternoon. Sunday evening an open meeting will be given to this work besides all the regular services. Let this be profitable for all the workers.
